Attention: Ms. Sharon M. Johnston

**Subject** J.T. Eaton™ AC Formula 90 Ready-to-Use Rodenticide  
EPA Reg. No. 56-70  
Changes to Use Restrictions (100 Foot Restriction)  
Your amended application of July 18, 2012

**Purpose** This submission updates the text to conform to the revised Risk Mitigation Decision for Ten Rodenticides, under sec 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

**Label** The labeling submitted with the above letter is acceptable, provided you submit one (1) copy of final printed labeling to us, before you ship your product.

**Existing stocks** The registrant may distribute or sell existing stocks of this product with current labeling for eighteen (18) months from the date of this letter.

**Consequence for non-compliance** If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

**Questions**

If you have questions about this letter, please contact Dan Peacock at 703-305-5407 (phone) or [peacock.dan@epa.gov](mailto:peacock.dan@epa.gov) (E-Mail).

Sincerely,

John Hebert  
Product Manager (07)  
Insecticide-Rodenticide Branch  
Registration Division (7505P)

**Enclosures**

#### TREATMENT FOR PET POISONING

If animal eats bait call a veterinarian at once

#### NOTE TO PHYSICIAN OR VETERINARIAN

**Anticoagulant Chlorophacinone** If swallowed this material may reduce the clotting ability of the blood and cause bleeding For humans or dogs that have ingested this product and/or have obvious poisoning symptoms (bleeding or prolonged prothrombin times) give Vitamin K<sub>1</sub> intramuscularly or orally

#### Environmental Hazards

This pesticide is extremely toxic to mammals and birds Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas Do not contaminate water when disposing of equipment wash water or rinsate

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

**READ THIS LABEL** Read this entire label and follow all use directions and use precautions Use only for sites pests and application methods described on this label

**IMPORTANT** Do not expose children pets or other non-target animals to rodenticides To help prevent accidents

- 1 Store product not in use in a location out of reach of children and pets
- 2 Apply bait in locations out of reach of children pets domestic animals and non target wildlife or in tamper resistant bait stations These stations must be resistant to destruction by dogs and by children under six years of age and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait If bait can be shaken from stations when they are lifted units must be secured or otherwise immobilized Even stronger bait stations are needed in areas open to hooved livestock raccoons bears or other potentially destructive animals or in areas prone to vandalism
- 3 Dispose of product container and unused spoiled and unconsumed bait as specified on this label

**Note** Bait stations are mandatory for outdoor above ground use Tamper-resistant bait states must be used if children pets non target mammals or birds may access the bait

### USE RESTRICTIONS

This product can only be used for control of Norway and roof rats and house mice *in and within* 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations Examples of such structures include homes and other permanent or temporary residences food processing facilities industrial and commercial buildings trash receptacles agricultural and public buildings transport vehicles (ships trains aircraft) docks and port of terminal buildings and related structures around and associated with these sites Fence and perimeter baiting beyond 100 feet from a structure as defined above is prohibited Do not place near or inside ventilation duct openings Do not contaminate water food feedstuffs food or feed handling equipment or milk or meat handling equipment or surfaces that come into direct contact with food When used in USDA inspected facilities this product must be applied in tamper-resistant bait stations Do not broadcast bait Do not use in sewers Burrow baiting with this product is prohibited

Do not sell this product in individual containers holding less than 4 pounds of bait

### SELECTION OF TREATMENT AREAS

Determine areas where rats or mice will most likely find and consume the bait Generally these are along walls by gnawed openings beside burrows in corners and concealed places between floors and walls or in locations where rodents or their signs have been seen Protect bait from rain or snow For best results remove as much food as possible

### APPLICATION DIRECTIONS

**Rats** Apply 3 to 10 place packs (4 5 to 15 ounces of bait) per placement if more than one placement is needed Space placements at intervals of 15 to 30 feet in infested areas Maintain an uninterrupted supply of fresh bait for at least 10 days or until fresh signes of rat activity cease to appear

**Mice** Apply one place pack per bait placement Space place packs at intervals of 8 to 10 feet Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of mouse activity cease to appear

**Follow up** Replace contaminated or spoiled bait immediately Wearing waterproof gloves collect and dispose of all dead animals and leftover bait properly To discourage reinfestation limit as many sources of food water and harborages as much as possible If reinfestation does occur repeat treatment Where a continuous source of infestation is present establish permanent bait stations and replenish with fresh bait as often as needed

6/16

**Storage and Disposal**

Do not contaminate water food or feed by storage or disposal

**Pesticide Storage** Store only in original container in a cool dry place inaccessible to children and pets Keep containers closed and away from other chemicals

**Pesticide Disposal** Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility

**Container Handling** Non refillable container Do not reuse or refill this container

[Plastic] Triple rinse (or equivalent) Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration

[Paper] Dispose of empty container by placing in trash at an approved waste disposal facility or by incineration

**NOTICE** To the extent consistent with applicable law buyer assumes all risks of use storage or handling of this material not in strict accordance with directions given herewith
